## PLANNING AND DEVELOPMENT DEPARTMENT

### 1. Fee Policies

#### 1.1 Goods and Services Tax (GST)

Bond figures quoted below are out of scope for GST purposes and therefore GST is not payable. Should Council be required to call up / draw down on the security bond for the nature of compensation, this does not represent a taxable supply and therefore is out of scope.

#### 1.2 Fee for Works constructed without Council Approval

Fee for Works constructed without Council Approval	An additional fee of 25% of the relevant application fee, with a minimum fee of \$360.00 shall be imposed on all Building (including Signs) and Plumbing applications where works have been constructed or a use has commenced without first obtaining the necessary Council approvals.	Sustainable Planning Act 2009 s260 (a)
----------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------

#### 1.3 Reducing Development Application Fees

Upon receipt of a written request by the applicant, the City Planner, relevant Branch Manager or Team Coordinator has the authority to determine to wholly or partially reduce a Development Application Fee where a strict application of the scheduled fee in their opinion is unfair or unreasonable.

For example:

- Where an application is withdrawn and a similar proposal is lodged as a new application, a new fee is to be determined based on the additional assessment to be undertaken and having regard to any refund granted for the original application.
- Where the strict application of a per meter squared or hectare fee results in an unreasonable amount that exceeds Council's costs in assessing the development, the fee is to be reduced to reflect Council's assessment costs.
- Where assessing single residential uses in association with reconfiguring a lot the fee is to be determined on a lot/dwelling type basis rather than per lot.

Name	Year 16/17 Fee  (incl. GST)	Legislative Provision / Head of Power	GST	LGA s97(2)
------	--------------------------------------	---------------------------------------------	-----	------------

## 1.4 Discount of Development Application Fees – Bona Fide Charitable or Community Organisations

A fee of 50% of the normal prescribed fee is payable in respect of an application in the following instances:

- Upon proof of status as a bona fide charitable or not-for-profit organisation; or
- Acceptance by the City Planner, relevant Branch Manager or Team Coordinator that the applicant is a bona fide charitable or community organisation.

This does not apply to private clubs (with the exception of Senior Citizens Clubs) or to applications for commercial uses, lot reconfigurations or similar developments where such developments do not fulfil a significant community role and which are not considered to be 'not-for-profit' developments.

## 1.5 Refund of Fees – Prior to the determination of an application

If an application (including a Local Law or plumbing application) is withdrawn or lapses prior to its determination a refund is applicable as follows:

During application stage (up to and including issue of Acknowledgement Notice – where applicable)	80% of assessment fee (incl GST where applicable)	-	#

----------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------	------------------------------------	-----

## 1.8 Applications involving more than one type of Development

Fees for the application shall be the sum of those fees that would have been paid in the event of a separate application being lodged for each type.

## 1.9 Development Applications involving Multiple Components

The fees for a Development Permit Application, which involves assessment under Council's Planning Scheme and the Building Code of Australia will be calculated as the sum of the fees applicable to the Building Work, Plumbing and Drainage, Reconfiguring a Lot and Material Change of Use of Premises Sections.

## 1.10 Preliminary Approval (Section 241 of the Sustainable Planning Act 2009)

Except where specifically indicated otherwise, application fees shall be the same for a preliminary approval (other than a preliminary approval in accordance with section 242 of the Sustainable Planning Act 2009 as for a Development Permit. Where a Development Permit is subsequently sought for the same proposal a fee of 50% of the current fee is applicable.

Such fee shall be the actual cost charged to Council for the review of the study by a specialist consultant but shall not include the time of any Council officer in organising for such review to be undertaken. Any additional fee shall be paid prior to the determination of the application.

## 1.13 Consultant's Fees

Where a development application is referred to an external consultant for processing, any additional cost of such external processing, above the level of the scheduled fee, is to be paid by the applicant prior to determination of the application, to the value that the external consultant's charge is greater than the scheduled fee.

## 1.14 Other Fees and Charges not listed below

Fees and Charges for other uses not mentioned below will be determined by the Responsible Officer upon request.

## 1.15 Infrastructure Agreements
