**Register of
Cost Recovery Fees**

2011 - 2012

The following fees apply to those areas of Ipswich which were flood affected in the January 2011 flood event.

1. Town Planning Applications

Where it is proposed to repair a flood affected dwelling, no planning application will be required. However, building approval is required from a building certifier for repairs which are structural in nature.

If a home is to be rebuilt, provided the building being replaced as it was, on a 'like-for-like' basis, a planning approval is not required.

If it is intended to change the location, size, materials (if in a character / heritage area) or use of the building, Council's planning scheme should be referred to confirm whether these works are assessable and trigger the requirement for a planning approval.

2. Building Applications

Owing to the National Competition Policy, Council is unable to waive any building fees. Therefore, normal building fees shall apply.

3. Plumbing Applications

If the work involves reinstating existing fittings (such as bath, sinks, taps) in current locations, Council will waive the fees in relation to the plumbing application. Council will waive all fees in relation to the lodgement of a plumbing application..

If the plumbing work involves replacing damaged pipes or drains and the associated connection of new fittings, in the same location and design as existing, Council will provide a simplified, fast track, on site inspection and approval process (arranged through a licensed plumber). Council will waive all fees in relation to the lodgement of a plumbing application..

Where significant change is proposed to the layout and design of the existing plumbing and drainage, an application and Council approval is required. Council will only charge 50% of its normal application fees and the application will be determined via a simplified, fast track process.

4. Food / ERA Licences

If the business is being reinstated like-for-like (such as selling the same kind of food with no changes to the previous kitchen layout), no new food licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the business is being reinstated with some minor changes such as rearranging the counter or kitchen layout, a plan of changes will need to be submitted to Council at the time of the recommencement inspection. No fees will apply.

If the business is to be reinstated with significant changes made, a new food licence application is required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

5. High Risk Personal Appearance Services (HRPAS) Business

If the HRPAS business is being reinstated like-for-like (with the same layout), no new licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the HRPAS business is being reinstated with some minor changes such as rearranging the layout, the plan of changes will need to be submitted to Council at the time of the recommencement inspection. No fees will apply.

If the HRPAS business is being reinstated with significant changes, a new application is required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

6. Environmentally Relevant Activity (ERA) or Flammable and Combustible Activity (F&C)

If the business is being reinstated like-for-like (with the same layout), no new licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the business will be reinstated with changes, a new application may be required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

7. Heritage / Character Places

If the building has heritage or character protection (if it is located within a Character Zone or listed as a Character Place under the Ipswich Planning Scheme or is a State listed heritage place), special provisions apply.

Where it is considered that demolition or removal of a Heritage / Character Place is warranted, Council may elect to waive the application fee and determine the application via a simplified, fast track process.

Where it is considered that the demolition or removal of a Heritage / Character Place is not warranted, normal fees and application processes will apply.

8. Copies of Plans

Any requests for copies of approved building, plumbing, drainage and development plans will be provided to flood affected property owners free of charge.
