Fees and Charges

2011 - 2012

The following fees apply to those areas of Ipswich which were flood affected in the January 2011 flood event.

1. Town Planning Applications

Where it is proposed to repair a flood affected dwelling, no planning application will be required. However, building approval is required from a building certifier for repairs which are structural in nature.

If a home is to be rebuilt, provided the building being replaced as it was, on a 'like-for-like' basis, a planning approval is not required.

If it is intended to change the location, size, materials (if in a character / heritage area) or use of the building, Council's planning scheme should be referred to confirm whether these works are assessable and trigger the requirement for a planning approval.

2. Building Applications

Owing to the National Competition Policy, Council is unable to waive any building fees. Therefore, normal building fees shall apply.

3. Plumbing Applications

If the work involves reinstating existing fittings (such as bath, sinks, taps) in current locations, Council will waive the fees in relation to the plumbing application. Council will waive all fees in relation to the lodgement of a plumbing application..

If the plumbing work involves replacing damaged pipes or drains and the associated connection of new fittings, in the same location and design as existing, Council will provide a simplified, fast track, on site inspection and approval process (arranged through a licensed plumber). Council will waive all fees in relation to the lodgement of a plumbing application..

Where significant change is proposed to the layout and design of the existing plumbing and drainage, an application and Council approval is required. Council will only charge 50% of its normal application fees and the application will be determined via a simplified, fast track process.

4. Food / ERA Licences

If the business is being reinstated like-for-like (such as selling the same kind of food with no changes to the previous kitchen layout), no new food licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the business is being reinstated with some minor changes such as rearranging the counter or kitchen layout, a plan of changes will need to be submitted to Council at the time of the recommencement inspection. No fees will apply.

If the business is to be reinstated with significant changes made, a new food licence application is required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

5. High Risk Personal Appearance Services (HRPAS) Business

If the HRPAS business is being reinstated like-for-like (with the same layout), no new licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the HRPAS business is being reinstated with some minor changes such as rearranging the layout, the plan of changes will need to be submitted to Council at the time of the recommencement inspection. No fees will apply.

If the HRPAS business is being reinstated with significant changes, a new application is required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

6. Environmentally Relevant Activity (ERA) or Flammable and Combustible Activity (F&C)

If the business is being reinstated like-for-like (with the same layout), no new licence application is required but an inspection by Council will be required prior to reopening the business. No fees will apply.

If the business will be reinstated with changes, a new application may be required. Council will charge only 50% of its normal application fees and the application will be determined via a simplified, fast track process.

7. Heritage / Character Places

If the building has heritage or character protection (if it is located within a Character Zone or listed as a Character Place under the Ipswich Planning Scheme or is a State listed heritage place), special provisions apply.

Where it is considered that demolition or removal of a Heritage / Character Place is warranted, Council may elect to waive the application fee and determine the application via a simplified, fast track process.

Where it is considered that the demolition or removal of a Heritage / Character Place is not warranted, normal fees and application processes will apply.

8. Copies of Plans

Any requests for copies of approved building, plumbing, drainage and development plans will be provided to flood affected property owners free of charge.

1 Fee Policies

Bond figures quoted below have not been raised to cover GST. However, if Council calls up the security bond, GST applies, and 1/11th of the bond is payable as GST.
- 1.2 Fee for Works constructed without Council Approval
An additional fee of 25% of the relevant application fee, with a minimum fee of \$300.00 shall be imposed on all Building (including Signs) and Plumbing applications where works have been constructed or a use has commenced without first obtaining the necessary Council approvals.
- 1.3 Waiver of Development Application Fees
The Responsible Officer has the authority to determine to partially or wholly waive a Development Application Fee where a strict application of the scheduled fee is obviously unreasonable for the type of application being received.
- 1.4 Discount of Development Application Fees – Bona Fide Charitable or Community Organisations
The Responsible Officer has the authority to calculate a reduced fee for development applications by bona fide charitable or community organisations where such development fulfils a significant community role.

This does not apply to private clubs (with the exception of Senior Citizens Clubs) or to applications for commercial uses, lot reconfigurations or similar developments where such developments do not fulfil a significant community role and which are not considered to be 'not for profit' developments.

A fee of 25% of the normal prescribed fee (assessment only) is payable in respect of an application by or for the purposes of the following –

Scouts and Girl Guides Associations,
War Widows Guild,
Creche and Kindergartens,
Queensland Deaf Society (Inc.),
Cerebral Palsy League of Queensland,
Freemasons Queensland,
Welfare Associations for the Blind,
Queensland Society for Crippled Children,
Senior Citizens Clubs,

1.7 Not properly made applications returned to the applicant Full fees are applicable for the resubmission of an application which was cancelled as being not properly made.	
1.8 Applications involving more than one type of Development Fees for the application shall be the sum of those fees that would have been paid in the event of a separate application being lodged for each type.	
1.9 Development Applications involving Development Permit only The fees for a Development Permit Application, which involves assessment under Council's Planning Scheme and the Building Code of Australia, should be the sum of the fees applicable to the Building Work, Plumbing and Drainage, Reconfiguring a Lot and Material Change of Use of Premises Sections.	
1.10 Preliminary Approval Except where specifically indicated otherwise, fees shall be the same as for the application for a Development Permit. Where a Development Permit is subsequently sought for the same proposal a fee of 50% of the current fee is applicable.	
1.11 Resubmission of an Application The fee payable for an application for approval where an application lapsed within the previous 12 months shall be 35% of the relevant current fee with a minimum fee of \$880.00 at the time of re-lodgement of the application. Note: The reduced resubmission fee is applicable regardless of whether the landowner was the original applicant or not.	
1.12 Major Developments Where an application is made to Council for a major development and an Economic Impact Assessment, Traffic Study, Geotechnical Study or other specialist study is required to be submitted and Council elects to have that study independently assessed by a second consultant, the applicant shall pay an additional fee. Such fee shall be the actual cost charged to Council for the review of the study by a specialist consultant but shall not include the time of any Council officer in organising for such review to be undertaken. Any additional fee shall be paid prior to the determination of the application.	
1.13 Consultant's Fees The cost of consultant's fees in respect to any further expert advice required by Council in consideration of any application/submission will be charged to the applicant. This is likely to be the case where referral co-ordination applies. Where a development application is referred to an external consultant for processing, any additional cost of such external processing, above the level of the scheduled fee, is to be met by application of a condition on the development approval, requiring payment of an additional fee, to the value that the external consultant's charge is greater than the scheduled fee.

A seasonal booking entitles the organisation to their choice of one full day/night on the weekend and two days/nights during weekdays. If a conflict occurs in relation to the last Saturday in March then preference is to be given to tenant playing the final with the other seasonal tenant playing their first game as an away from home game.
