On April 2 2007 the Queensland Water Commission imposed a Commission Water Restriction under section 360ZD of the *Water Act 2000* ("the Act") ("Level 5 Commission Water Restriction"). As delegate under section 360ZG of the Act, Ipswich City Council as the Water Service Provider for the Ipswich City Council local government area, gives notice of the Level 5 Commission Water Restriction as required under section 360ZE of the Act. **The Level 5 Commission Water Restriction will take effect on and from 10 April 2007** and will apply throughout the Ipswich City Council local government area. A full copy of the Level 5 Commission Water Restriction is available from:

For Level 5 Commission Water Restriction 8.3 the use of Ipswich City Council's reticulated (town) water is not permitted for activities associated with land development and subdivisional activities (including dust suppression, roadworks and landscape irrigation) except where the written approval of the Ipswich City Council has been obtained. The use of recycled water or alternative sources for activities associated with land development and subdivisional activities (including dust suppression, roadworks and landscape irrigation) is mandated unless an exemption is granted by Ipswich City Council.

While this Level 5 Commission Water Restriction is in force, it is to be the only restriction in force for the matters that are described in Schedule 1 of the Level 5 Commission Water Restriction and any Ipswich City Council water restriction will not apply to such matters unless the Commission has expressly notified that a particular Ipswich City Council water restriction continues in force.
