General Building Guidelines for Single Residential Properties

Date: 1 December 2019  Version: 3.0

BUILDING APPROVALS

The following types of building work undertaken on a residential property will require a building permit:

(a) Dwelling/Dual Occupancy (Class 1 habitable) - any habitable single dwelling or dual occupancy buildings

(b) Decks, Balconies, Verandahs, Awnings and the like - more than 10m² in area after the building work is completed (e.g. 3.1m x 3.2m); or

- more than 2.4m high; or

- with a mean height of more than 2.1m; or

- longer than 5m along any side; or

- for a deck which is located on or higher than 1m above the deck’s natural ground surface.

(c) Garages, Sheds, Carports, Shipping Containers and the like - more than 10m² in area after the building work is completed; or

- more than 2.4m high; or

- with a mean height of more than 2.1m; or

- longer than 5m along any side.

(d) Fences and Screens - exceeding 2m in height above natural ground surface; or

- where part of a swimming pool safety barrier

(e) Retaining Walls - has a surcharge loading over the zone of influence for the wall;

- the total height of the wall and of the fill or cut retained by the wall is more than 1m above the natural ground surface; or

- the wall is closer than 1.5m to a building or another retaining wall.

(f) Swimming Pools and Spas - Any swimming pool or spa as defined under the Queensland Building Act 1975.

For any other building work, you should consult a building professional for advice regarding the necessity for a building permit.

TOWN PLANNING APPROVALS

Where a planning approval is required, this must be obtained before a building permit can be issued and may include alternate siting provisions.

Examples of where a planning application may be triggered include:

(a) If the site is located within a Character Area or on a Character Listed property;

(b) If the site is affected by a Development Constraint Overlay;

(c) If the building or structure does not comply with the design criteria detailed in the Residential Code or the conditions of a Development Permit.

Further planning related information regarding planning scheme zones and development constraint overlays can be obtained from Council’s Ipswich Planning website.

BUILDING LOCATION ENVELOPE (BLE)

If the property is subject to a Building Location Envelope (BLE), contact Council’s Planning and Regulatory Services Department on (07) 3810 6888 to determine the extent of work that is permissible within and outside of the BLE.

AMENITY AND AESTHETICS REFERRAL PROVISIONS

In addition to design and siting provisions, the Amenity and Aesthetics Referral Provision 2019 applies to particular Class 1 and 10 buildings and structures. Where identified within the provisions, a referral agency response from Council will be required before a building permit can be issued.

Referral items include:

- Demolition or removal of a building or structure;

- Relocation of a building or structure;

- Class 10 buildings or structures exceeding certain dimensions;

- Carparks within the prescribed road boundary setback;

- Certain Class 1 and 10 buildings on vacant land;

- Transportable building and structures; and

- Fences and retaining walls.

For further information refer to the Amenity and Aesthetics Referral Provision 2019 and the following Implementation Guidelines:

1. Transportable Buildings (Shipping Containers, Train Carriages, Demountable Buildings and the like)

2. Oversized Class 10 Buildings and Structures

3. Modification, Removal or Relocation of a Building

4. Amenity and Aesthetics Referral Provision 2019

REWELF AGENCY ASSESSMENT FOR SITING VARIATION

For single residential properties, a Siting Variation is required where the proposal does not meet the prescribed design and siting criteria within the Queensland Development Code (QDC), Mandatory Part (MP) 1.1 or 1.2, except where a separate or concurrent planning approval has been granted for the development.

DEWLLING SETBACKS

Road Boundary

Road boundary setback is 6m. For corner lots, the minimum secondary road frontage setback is 6m unless a nomination of road frontage including narrow lot concession applications (refer QDC MP 1.2, Table A1)

Road Boundary

Road boundary setback is as outlined in the QDC MP1.1 Table A1, as below:

- Maximum area covered by all roofed buildings and structures roofed with impervious materials, does not exceed 50% of the total lot area.

RESIDENTIAL DRIVEWAYS

For locations and requirements refer to Council Driveway information on Council’s website.

RETAINING WALLS, FENCES AND SCREENS

The following boundary setback provisions apply except for boundary truncations.

The height refers to the total height of any retaining wall, screen, fence or combination thereof from natural ground surface (i.e. the finished surface level when the lot was created on the plan of survey).

BOUNDARY TRUNCATIONS

(1) Fences, screens, retaining walls and other structures built within the 6m x 6m corner truncation area are not more than 1m high.

(2) No building or structure over 2m high is built within a 9m x 9m corner truncation.

SITE COVER

The maximum area covered by all roofed buildings and structures roofed with impervious materials, does not exceed 50% of the total lot area.

RESIDENTIAL DRIVEWAYS

For locations and requirements refer to Council Driveway information on Council’s website.

BUILD OVER OR NEAR RELEVANT INFRASTRUCTURE

Despite any boundary setback allowances noted in this guideline, building work proposed to be constructed within 3m of any relevant infrastructure will be required to comply with the QDC MP 1.4 - Building over or near relevant infrastructure. For further information refer to the fact sheet available from Council’s Building webpage.
