

SOUTH EAST QUEENSLAND AGVET CHEMICAL CLEANUP

To assist farmers and other agvet chemical users affected by the recent floods, Agsafe, in collaboration with the Qld Department of Environment and Science, is enabling an extraordinary ChemClear run through South East Queensland.

This 'Flood Run' is a short, sharp campaign to remove **drumMUSTER** eligible products that have been impacted by the flood, and therefore rendered obsolete. This is a free service for drumMUSTER eligible products. In addition, the Qld Department of Environment and Science will fund for non-**drumMUSTER** products at the same time. This campaign is designed to enable the safe and secure removal of flood impacted chemicals off farms and out of rural communities with no additional cost for registrants accepted.

This project is proudly supported by the Queensland Government

REGISTER YOUR CHEMICALS

As with other ChemClear campaigns, agricultural chemical holders will need to pre-register. Please [click on this link](#) to register your chemicals for collection **by 19 May**.

**Registrations close
19 May**
