

Commingled

Recycling Services

Service overview

Industrial commingled recycling bins are a financially viable solution for businesses that generate a high volume of recyclable items. You will also be helping the environment, as all recyclable items are taken to a Material Recovery Facility for recycling. Commingled recycling bins are available from Ipswich Waste Services (IWS) and come in several sizes to suit your needs.

Benefits of this service include:

- more cost effective than general waste collection services
- save money and help the environment by diverting waste from landfill
- flexibility such as regular weekly/ fortnightly services
- bin repairs from general wear and tear are included in the standard service charges.

Acceptable items

- ✓ Aerosols
- ✓ Aluminium cans (soft drink cans)
- ✓ Cardboard boxes, cartons and packaging
- ✓ Glass jars and bottles
- ✓ Magazines and junk mail
- ✓ Paper including newspaper
- ✓ Rigid plastic bottles and containers
- ✓ Steel cans (food cans)

No other waste can be placed in the commingled recycling bins.

Services provided by IWS

Industrial general waste, industrial cardboard/paper, industrial commingled recycling, commercial general waste and recycling wheelie bins, commercial waste audits, document destruction for confidential material, clinical waste, skips and ROROs for domestic and commercial use.
