

An application form is ONLY required for the customer types listed below, all other customers are able to visit the nursery to collect their plants.

Applicants will be notified of the outcome of their application within 2 weeks. If your application is successful applicants will be contacted to organise a suitable date and time for collection. Due to the number of plants to be collected applicants are unable to select from the nursery as would normally be possible.

Please note: Free plants are to be planted at the property stated in your application, they are not to be redistributed.

Please send your completed application form and plan to:

Ipswich City Council, Free Plant Program, PO Box 191, IPSWICH QLD 4305

Applicant's details

Description of planting area:

Approximate size of planting area:

Please indicate the number of plants you require for each type of plant and nursery staff will select from the variety of suitable species currently available, or if you would prefer the nursery staff to pick for you.

Types of plants	Quantity
Groundcovers	
Sedges and Rushes (suitable for riparian planting)	
Climbers	
Small shrubs (0.5 metres to 2 metres)	
Medium Shrubs (3 metres to 5 metres)	
Shrubs	
Medium Trees (4 metres to 10 metres)	
Tall Trees (11 metres to 40 metres)	
Important Koala Food Trees (Trees in this list grow to 20 metres+ and are suitable for property owners on larger blocks)	
I would prefer the nursery staff to select the quantity of each type of plant	

Please note:

- Nursery staff will ensure all plant species are suitable for Ipswich's climate and where possible endemic to the region. Plants will be supplied as native tube-stock for optimum growth and sustainability.
- For those property owners in the Landholder Partnerships Program, please contact your Program Officer for additional advice on plant selection.

Site plan
Use the space provided to draft your site plan, this is a requirement of your application. The plan must include: property boundaries, buildings, roads and planting area. (You DO NOT need to show where specific plants will be planted.)
