1.5 Assessment of applications:

Council will give due consideration to every proposal to install a personal tribute within Council's open space or road network. However, approval of a proposal to install a personal tribute is only likely to be given in instances where Council is satisfied that the proposal meets the following criteria:

- is in accordance with the Guidelines for the Consideration of Suitable Persons (appendix 1);
- is accepted by the nominee or related persons (where applicable);
- stands assessment and diligence searches conducted by Council;
- is accepted by, or within, the community (where applicable)

The following conditions shall also be met prior to the approval of any tributes:

- (a) The ultimate approval for the type of infrastructure selected will reside with Council, as it will need to conform to the specifications of Council's planning scheme policies and/or the design standards outlined in any adopted master plan or within the Public Parks Strategy, or as determined by Council.
- (b) Council will generally only approve sites in the vicinity of a feature or place associated with the person of outstanding significance to that open space or road network. The installation site of the infrastructure will be in a location mutually agreed upon by the requester and the Council.
- (c) Installation of a personal tribute will not generally be considered within twelve months of the death of that person, to allow for the development of a historical perspective and for consideration of the criteria for significance.
- (d) Council retains the right to use the land adjacent to the commemorative plaque or park infrastructure, as it deems appropriate, up to and including the moving of the park infrastructure to another location. Every attempt will be made to ensure infrastructure is relocated as close to the original location as feasible.
- (e) Council maintains the right to remove or relocate it should the site be redeveloped for an alternative use or significantly changed in character. Council does not guarantee the retention of any personal tribute beyond the life of the infrastructure.
- (f) All plaques surrendered to Council shall be disposed of in accordance with the relevant Council policy.
- (g) Personal tributes which have been placed in any location without authorisation, or which do not meet the general requirements of this policy may be removed. Attempts should be made to consult the person(s) responsible for initially siting the personal tribute prior to its removal.

Where there is uncertainty over the appropriateness of a personal tribute, a report will be prepared for consideration and decision by Council.
