

# Project Update

## Springfield Parkway and Springfield Greenbank Arterial Road Upgrade

INF03218

17 January 2023

### STAGE 1

As previously advised, the project team postponed the traffic switch of Springfield Greenbank Arterial Road from December 2022 to late January 2023. This notification is to advise on the series of traffic switches starting from 23 January 2023.

### WHAT WORKS ARE COMING UP?

#### Traffic Switch

From Monday 23 January, all vehicle traffic travelling along Springfield Greenbank Arterial Road, from Eden Station Drive towards Springfield Parkway roundabout, will be switched over to the new lane alignment. The existing lanes will then be closed to commence rehabilitation of the existing road.

This traffic switch will result in a **temporary closure of the intersection of Escarpment Drive** at Springfield Greenbank Arterial Road for approximately **4 months**. This will mean that access into and out of the Escarpment Estate will be via Springfield Parkway only.

The Project Team appreciates the impact this will have on the Escarpment Estate and is scheduling all works along the closed road to be carried out as quickly and safely as possible.

Subsequent traffic switches will also occur during February along Springfield Parkway (from Springfield Lakes Boulevard towards the Springfield Parkway roundabout and from the roundabout to past Hymba Yumba Independent School).

### Pedestrian shared pathways

Staged switching of pedestrian shared pathways will also be occurring at this time. Please adhere to the pedestrian pathways to ensure safety of the travelling public.

### WHEN WILL THESE WORKS TAKE PLACE?

Start	22 January 2023
Duration	24/7
Time and day	8pm – 5am on 22 January to prepare for the traffic switch active from 23 January.  Night works will be needed to ensure the safety of workers, motorists and pedestrians.

### THANK YOU

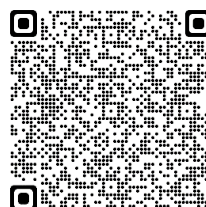

The project team appreciates your understanding and patience as a result of this traffic changes.

### CONTACT US
