

Notification of Works

Springfield Parkway and Springfield Greenbank Arterial Road Upgrade

INF03218

13 September 2023

STAGE 1

Nightworks

Eden Station Drive

To safely implement and progress the next phase of works of the Springfield Parkway and Springfield Greenbank Arterial duplication project, nightwork is required.

From Sunday night 24 September 2023, Foam Bitumen Stabilisation works will begin at the intersection of Eden Station Drive and Springfield Greenbank Arterial, Springfield.

Foam bitumen stabilisation will improve the strength of the existing road surface while providing flexibility in the road pavement. It is anticipated these works will be three weeks in duration, being complete by 13 October 2023, weather and construction constraints permitting.

WHAT TO EXPECT?

- Traffic control vehicles and controllers to direct traffic through the work area
- Reduced speed limit to 40km/h through work area
- For up to ten days motorists will drive on an unsealed road surface
- Some noise and dust will be associated with these activities
- These works will not impact Brisbane Lions games and stadium access
- Limited pedestrian access around the construction area. Temporary footpath closures near the work area will occur and alternative routes will be signed.

NIGHTWORKS

- During night works vehicles will use 'quacker' style reversing alarms rather than beepers to reduce noise
- Light towers will be placed to limit glare to nearby residences
- All efforts will be made to minimise dust and noise with some noisier activities being completed prior to 10.30pm.

WHEN WILL THESE WORKS TAKE PLACE?

Start	24 September – 13 October
Duration	Three weeks
Time and day	7pm – 5am Sunday to Thursday

THANK YOU

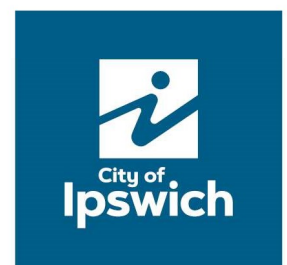

The project team apologises for any inconvenience during these works and thank you for your patience as we construct this vital infrastructure for the Springfield region.
