

General Waste

Industrial Services

Service overview

A general waste industrial service is a cost effective and efficient way of removing bulk waste from your business.

This service is best suited for commercial and industrial customers who generate a variety of waste streams and have the ability to store an industrial bin on site.

Benefits of this service include:

- availability Monday to Saturday
- flexibility such as regular weekly/fortnightly and ring-in services
- 24-hour notice for additional services
- bin repairs from general wear and tear are included in the standard service charges.

Acceptable items

- ✓ General non-hazardous waste
- ✓ Commercial and industrial waste

Unacceptable items

- ✗ Acids and alkalis
- ✗ Asbestos
- ✗ Batteries
- ✗ Fire extinguishers or gas bottles
- ✗ Fuel, oil, poisons and other liquid waste
- ✗ Gas bottles
- ✗ Infectious and medical waste
- ✗ Paint and paint related products
- ✗ Quarantine waste
- ✗ Tyres
